**Section 1 - Identification**

**Product Identifier**
ANTIFREEZE & COOLANT – PREDILUTED 50/50 BLEND

**Product Code**
904062

**Synonyms**
Ethylene Glycol Based Antifreeze; Extended Life Hybrid Organic Acid Technology (HOAT) formulation for automobiles, light duty trucks and heavy duty diesels. Prediluted 50/50 Blend. Fully formulated.

Formulated with a combined concentration of ≥ 780 ppm molybdate (as MO4-2) and nitrite (as NO2-) to meet ASTM D6240 fully formulated heavy duty engine coolant specification requirements.

**Recommended Use**
Antifreeze. If this product is used in combination with other products, refer to the Safety Data Sheet for those products.

**Restrictions on Use**
None known.

**Manufacturer Information**
Siegel Oil Company
1380 Zuni Street
Denver, CO 80204
Phone: 303-893-3211
www.siegeloil.com
Emergency # 1-800-633-8253

**Issue Date**
February 5, 2015

**Supersedes Issue Date**
July 29, 2011

**Original Issue Date**
June 3, 2004

**Section 2 - Hazard(s) Identification**

**Classification in Accordance with 29 CFR 1910.1200.**
- Acute Toxicity (Oral), Category 4 (~30% unknown)
- Eye Damage / Irritation, Category 2A
- Specific Target Organ Toxicity - Single Exposure, Category 1 (central nervous system, heart, kidneys, and respiratory system)
- Specific Target Organ Toxicity - Repeated Exposure, Category 1 (central nervous system, heart, and respiratory system)
- Specific Target Organ Toxicity - Repeated Exposure, Category 2 (blood, kidneys, and liver)

**GHS LABEL ELEMENTS**

**Signal Word**
DANGER!

**Hazard Statement(s)**
- Harmful if swallowed.
- Causes serious eye irritation.
- Causes damage to central nervous system, heart, kidneys, and respiratory system.
Safety Data Sheet

Material Name: ANTIFREEZE & COOLANT – PREDILUTED 50/50 BLEND

Causes damage to central nervous system, heart, and respiratory system through prolonged or repeated exposure. May cause damage to blood, kidneys, and liver through prolonged or repeated exposure.

Precautionary Statement(s)

Prevention
Do not breathe vapor or mist. Do not eat, drink or smoke when using this product. Wear protective gloves and eye/face protection. Wash thoroughly after handling.

This product contains 30-50 ppm (0.003-0.005%) denatonium benzoate bittering agent which has been added to help prevent ingestion by humans and animals.

Response
IF exposed: Call a POISON CENTER or doctor/physician. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Rinse mouth. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Storage
Store in a well-ventilated place. Keep cool.

Disposal
Dispose of in accordance with all applicable federal, state and local regulations.

Hazard(s) Not Otherwise Classified
None known.

*** Section 4 - First Aid Measures ***

Description of Necessary Measures

Inhalation
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

Skin
IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.

Eyes
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Rinse mouth.

Most Important Symptoms/Effects

Acute
Harmful if swallowed, mild skin irritation, eye irritation, central nervous system damage, kidney damage, heart damage, respiratory system damage.

This product contains 30 to 50 ppm (0.003 to 0.005%) denatonium benzoate bittering agent which has been added to help prevent ingestion by humans and animals.

Delayed
Central nervous system damage, heart damage, respiratory system damage, blood damage, kidney damage, liver damage.
**Safety Data Sheet**

Material Name: ANTIFREEZE & COOLANT – PREDILUTED 50/50 BLEND

**Indication of Immediate Medical Attention and Special Treatment Needed, If Needed**

IF exposed: Call a POISON CENTER or doctor/physician. Treat symptomatically and supportively. Call 1-800-468-1760 for additional information.

---

**Section 5 - Fire-Fighting Measures**

**Suitable Extinguishing Media**

Carbon dioxide, alcohol resistant foam, regular dry chemical, and water spray or fog. Water or foam may cause frothing.

**Unsuitable Extinguishing Media**

Do not use high-pressure water streams.

**Specific Hazards Arising from the Chemical**

Slight fire hazard. Avoid friction, static electricity and sparks. Empty containers may contain product residue.

**Hazardous Combustion Products**

Decomposition and combustion materials may be toxic. Burning may produce carbon dioxide, carbon monoxide, aromatic hydrocarbons, phenols, and unidentified organic compounds. Potential decomposition gases have not been fully determined but may include: oxides of carbon, phenols, and/or aromatic hydrocarbons.

**Special Protective Equipment and Precautions for Firefighters**

Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.

**Fire Fighting Measures**

Move container from fire area if it can be done without risk. Cool containers with water spray until well after the fire is out. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas. Apply water from a protected location or from a safe distance. Dike for later disposal.

**NFPA Ratings:**

Health: 2  Fire: 1  Reactivity: 0

Hazard Scale: 0 = Minimal  1 = Slight  2 = Moderate  3 = Serious  4 = Severe

---

**Section 6 - Accidental Release Measures**

**Personal Precautions, Protective Equipment and Emergency Procedures**

Wear personal protective clothing and equipment, see Section 8. Avoid release to the environment.

**Methods and Materials for Containment and Clean Up**

Remove all ignition sources. Do not touch or walk through spilled product. Stop leak if you can do it without risk. Wear protective equipment and provide engineering controls as specified in Section 8: Exposure Controls/Personal Protection.

Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Ventilate area and avoid breathing vapor or mist. A vapor suppressing foam may be used to reduce vapors. Contain spill away from surface water and sewers. Contain spill as a liquid for possible recovery, or sorb with compatible sorbent material and shovel with a clean, sparkproof tool into a sealable container for disposal.

Additionally, for large spills: Water spray may reduce vapor, but may not prevent ignition in closed spaces. Dike far ahead of liquid spill for collection and later disposal.

There may be specific federal regulatory reporting requirements associated with spills, leaks, or releases of this product. Also see Section 15: Regulatory Information.

---

**Section 7 - Handling and Storage**

**Precautions for Safe Handling**

Do not breathe vapor or mist. Do not eat, drink or smoke when using this product. Wear protective gloves and eye/face protection. Wash thoroughly after handling.

**Conditions for Safe Storage, Including Any Incompatibilities**

Store and handle in accordance with all current regulations and standards. See Section 14: Transportation Information for Packing Group information.
Incompatibilities
Avoid contact with strong oxidizing agents and acids.

* * *  Section 8 - Exposure Controls / Personal Protection  * * *

Component Exposure Limits
Ethylene glycol (107-21-1)

ACGIH: 100 mg/m3 Ceiling (aerosol only)
OSHA Vacated: 50 ppm Ceiling; 125 mg/m3 Ceiling

Appropriate Engineering Controls
Provide general ventilation needed to maintain concentration of vapor or mist below applicable exposure limits. Where adequate general ventilation is unavailable, use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below applicable exposure limits.

Individual Protective Measures, such as Personal Protective Equipment
Personal protective equipment should be selected based upon the conditions under which this material is used. A hazard assessment of the work area for PPE requirements should be conducted by a qualified professional pursuant to regulatory requirements. The following PPE should be considered the minimum required: safety glasses, gloves, and lab coat or apron.

Eyes/Face Protection
Safety glasses with side shields should be worn at a minimum. Additional protection, such as goggles, face shields, or respirators may be needed dependent upon anticipated use and concentrations of mists or vapors. Provide an emergency eye wash fountain and quick drench shower in the immediate work area. Contact lens use is not recommended.

Skin Protection
Where skin contact is likely, wear gloves impervious to product; use of natural rubber (latex) or equivalent gloves is not recommended.
To avoid prolonged or repeated contact where spills and splashes are likely, wear appropriate chemical-resistant faceshield, boots, apron, whole body suits, or other protective clothing.

Respiratory Protection
Use NIOSH-certified P- or R-series particulate filter and organic vapor cartridges when concentration of vapor or mist exceeds applicable exposure limits. Protection provided by air purifying respirators is limited. Do not use N-rated respirators. Selection and use of respiratory protective equipment should be in accordance in the USA with OSHA General Industry Standard 29 CFR 1910.134; or in Canada with CSA Standard Z94.4.

* * *  Section 9 - Physical & Chemical Properties  * * *

Appearance/Odor: Clear, yellowish green liquid, mild odor
Boiling Point: ~229°F @atmospheric pressure (109°C)
Solubility (H2O): Complete
Density: 8.86 to 9.11 lb/US gal
Evaporation Rate: Less than 1 (butyl acetate = 1)
LFL: Not available
UFL: Not available
Vapor Pressure: 18 mm Hg at 68°F (20°C)

pH: 7.9-8.9
Odor Threshold: Not available
Melting Point: -34°F (-37°C)
Specific Gravity: 1.060-1.090 @ 68°F
Octanol/H2O Coeff.: Not available
Auto Ignition Temperature: Not available
Flash Point: Not available
Viscosity: Not available

Other Property Information
No information is available.

* * *  Section 10 - Stability & Reactivity  * * *

Reactivity
No reactivity hazard is expected.
Safety Data Sheet

Material Name: ANTIFREEZE & COOLANT – PREDILUTED 50/50 BLEND

Chemical Stability
Stable at normal temperatures and pressure.

Possibility of Hazardous Reactions
Will not polymerize.

Conditions To Avoid
Avoid heat, flames, sparks and other sources of ignition. Avoid contact with incompatible materials.

Incompatible Materials
Avoid contact with strong oxidizing agents and acids.

Hazardous Decomposition Products
None under normal temperatures and pressures.

*** Section 11 - Toxicological Information ***

Toxicity Data and Information

Component Analysis - LD50/LC50

- Ethylene glycol (107-21-1)
  Dermal LD50 Rat 10600 mg/kg; Oral LD50 Rat 4000 - 10200 mg/kg
  Benzoic acid (65-85-0)
  Inhalation LC50 Rat >26 mg/m3 1 h; Oral LD50 Rat 1700 mg/kg

Information on Likely Routes of Exposure

Inhalation
May cause central nervous system damage, heart damage, kidney damage, respiratory system damage, blood damage, and liver damage.

Ingestion
Harmful if swallowed. May cause vomiting and nausea.

Skin Contact
Causes mild skin irritation.

Eye Contact
Causes serious eye irritation.

Immediate Effects
Mild skin irritation, eye irritation, central nervous system damage, heart damage, kidney damage, respiratory system damage.

Delayed Effects
Central nervous system damage, heart damage, respiratory system damage, blood damage, kidney damage, liver damage.

Irritation/Corrosivity
Mild skin irritation, eye irritation.

Respiratory Sensitization
No information available for the product.

Skin Sensitization
No information available for the product.

Carcinogenicity

Component Carcinogenicity

- Ethylene glycol (107-21-1)
  ACGIH: A4 - Not Classifiable as a Human Carcinogen

Germ Cell Mutagenicity
Based on best current information, there is no known mutagenicity associated with this product.

Teratogenicity
Based on best current information, there is no known teratogenicity associated with this product.

Reproductive Effects
No information available for the product.
**Safety Data Sheet**

Material Name: ANTIFREEZE & COOLANT – PRE-DILUTED 50/50 BLEND

**Specific Target Organ Effects - Single Exposure**
- Central nervous system, heart, kidneys, respiratory system

**Specific Target Organ Effects - Repeated Exposure**
- Central nervous system, heart, respiratory system, blood, liver, kidneys

**Aspiration Hazard**
- No information available for the product.

**Medical Conditions Aggravated by Exposure**
- Central nervous system disorders, eye disorders, kidney disorders, respiratory disorders, heart disorders, skin disorders and allergies.

### *** Section 13 - Disposal Considerations ***

**Disposal Methods**
- Dispose of in accordance with all applicable federal, state and local regulations. Regulations may also apply to empty containers. The responsibility for proper waste disposal lies with the owner of the waste. Contact Safety-Kleen regarding proper recycling or disposal.
- This product, if discarded, is not expected to be a characteristic or listed hazardous waste. Processing, use, or contamination by the user may change the waste code(s) applicable to the disposal of this product.

### *** Section 14 - Transport Information ***

**Transportation Regulations**

**DOT Shipping Name:** Not regulated as a hazardous material.

**Additional Information:** Bulk Shipments: 5000 lbs or greater of ethylene glycol (~1070 gallon blended product)

UN 3082 Environmentally hazardous substance, liquid, n.o.s. (Ethylene glycol), RQ 9; PG III
Safety Data Sheet
Material Name: ANTIFREEZE & COOLANT – PREDILUTED 50/50 BLEND

TDG  Not regulated as dangerous goods.

*** Section 15 - Regulatory Information ***

Volatile Organic Compounds (As Regulated)
46-51 WT%; 4.1-4.6 LB/US gal; 495-548g/l
As per 40 CFR Part 51.100(s).
Non-photochemically reactive per SCAQMD Rule 102
VOC Vapor Pressure Approx 0.06 mmHg @ 20 °C (approximate)

Federal Regulations
SARA 302/304
Component Analysis
Based on the ingredient(s) listed in Section 3, this product does not contain any "extremely hazardous substances" listed pursuant to Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) Section 302 or Section 304 as identified in 40 CFR Part 355, Appendix A and B.

SARA 311/312 Hazardous Categories
Acute Health: Yes  Chronic Health: Yes  Fire: No  Pressure: No  Reactive: No

SARA Section 313
Component Analysis
This product contains a "toxic" chemical subject to the requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) and 40 CFR Part 372.

Ethylene glycol (107-21-1)  1.0 % de minimis concentration

CERCLA
Component Analysis
Based on the ingredient(s) listed in SECTION 3, this product contains the following "hazardous substance" listed under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) in 40 CFR Part 302, Table 302.4 with the following reportable quantities (RQ):

Ethylene glycol (107-21-1)  5000 lb final RQ; 2270 kg final RQ
Benzoic acid (65-85-0)  5000 lb final RQ; 2270 kg final RQ

TSCA Inventory
All the components of this product are listed on, or are automatically included as "naturally occurring chemical substances" on, or are exempted from the requirement to be listed on, the TSCA Inventory.
